

REGULATORY COMPLIANCE, INVESTIGATIONS AND ENFORCEMENT

In today's rapidly evolving global business landscape, navigating regulatory frameworks has become increasingly complex, particularly in a dynamic market like Hong Kong. Our Regulatory Compliance, Investigations, and Enforcement practice provides strategic, proactive, and solution-driven advice to businesses and individuals enabling them to mitigate the significant legal, commercial and reputational risks often associated with compliance, investigations, and enforcement issues.

With Hong Kong serving as a major international financial hub, local and international companies must comply with increasingly rigorous regulations from authorities such as the Securities and Futures Commission (SFC), the Hong Kong Monetary Authority, the Insurance Authority, the Competition Commission,

the Labour Department, the Immigration Department, the Consumer Council, and the Customs and Excise Department. In addition, companies need to be prepared to respond to and assist with enquiries and investigations by the Independent Commission Against Corruption (ICAC), and the Commercial Crime Bureau (CCB).

Our lawyers combine an in-depth understanding of how Hong Kong regulators operate with a strong track record of service. We are recognised and respected by key regulators, and our clients trust us to deliver pragmatic, results-oriented solutions that ensure compliance without compromising business goals.

We serve businesses, financial institutions, individuals from the business community, and public bodies who rely on us to navigate regulatory challenges effectively.

We frequently represent clients in complex investigations led by the SFC and ICAC. Our work includes accompanying clients to compulsory interviews, such as SFC investigations, where individuals are legally required to answer questions. Our team is also regularly engaged to provide immediate legal support during urgent raids conducted by the CCB and SFC, offering on-site legal counsel to company directors and individuals.
